

DOING WELL AND CAN IMPROVE

1. Pick a quote that highlights something your college is doing well to address the challenge identified by students. What exactly is your college doing to support students with this challenge or help students avoid this challenge?

2. Pick a quote that highlights an area where your college can improve to better address the challenge identified by students. What exactly is your college doing now and how could these efforts be improved to better support students with this challenge or help students avoid this challenge?

3. Are there any ideas/approaches shared by your colleagues from other colleges that you might consider bringing back to your campus?
